<sup>\*</sup>Estimated exposure only includes population within the map area.

#### Population Exposure

population per 1 sq. km from Landscan

# 166.9°W 167.8°W IV IV IV IV IV 15.2°S iganville IV Norsup 16.1°S

#### PAGER content is automatically generated, and only considers losses due to structural damage. Limitations of input data, shaking estimates, and loss models may add uncertainty.

#### **Structures**

Overall, the population in this region resides in structures that are highly vulnerable to earthquake shaking, though some resistant structures exist. The predominant vulnerable building types are unknown/miscellaneous types and wood construction.

### **Historical Earthquakes**

| Date       | Dist. | Mag. | Max       | Shaking |
|------------|-------|------|-----------|---------|
| (UTC)      | (km)  |      | MMI(#)    | Deaths  |
| 2002-11-27 | 122   | 5.8  | V(19k)    | 0       |
| 1999-08-22 | 97    | 6.5  | IX(2k)    | _       |
| 2002-01-02 | 241   | 7.2  | VIII(28k) | 0       |

Recent earthquakes in this area have caused secondary hazards such as landslides that might have contributed to losses.

#### Selected City Exposure

from GeoNames.org

| MMI | City       | Population |  |  |  |
|-----|------------|------------|--|--|--|
| IV  | Saratamata | <1k        |  |  |  |
| IV  | Lakatoro   | 1k         |  |  |  |
| IV  | Port-Olry  | 21         |  |  |  |
| IV  | Norsup     | 3k         |  |  |  |
| IV  | Luganville | 13k        |  |  |  |
